

eProposal Assistant

Streamline

- Search and apply online for research grants and proposals
- Route funding applications and supporting documents to the grants and contracts office at your institution
- Configure eProposal to your institution's funding requirements

Connect

- Maintain live connection to Grants.gov
- Receive notice of funding prospects as soon as they are available
- Track funding status, amount, and pre-award accounting

Facilitate

- Merge data into eProposal from system profiles
- Process grant submissions quickly, without large amounts of paperwork
- Reduce valuable staff hours

With eProposal Assistant from iRIS, it's simple to complete all parts of the grant submission and awarding process. eProposal makes it easy to create and complete proposals, budgets, sponsor forms, and System-to-System and Non-System-to-System submissions to sponsors.
